To: Offerors

Date: March 29, 2019

From: Procurement and Partnerships Team, INVEST Project; Implemented by DAI Global LLC

Subject: Request for Proposals (RFP) INVEST-016 Haiti INVEST Agricultural Value Chain Assessment

Due: 1:00PM EDT on Wednesday, April 17, 2019

Dear Offerors:

Enclosed is a Request for Proposals (RFP) to support the implementation of DAI’s INVEST project funded by the United States Agency for International Development (USAID). DAI invites firms to submit a proposal for work as part of the USAID Haiti Mission.

I. **RFP Process and deadlines:** This solicitation will result in the award of one or multiple Fixed Price subcontracts.
   a. Submission of Questions – Questions must be submitted no later than **1:00 pm EDT on April 8, 2019** via email to **INVEST_Procurement@dai.com**.
   b. Submission of Proposals – Proposals must be submitted no later than **1:00 pm EDT on April 17, 2019** via email to **INVEST_Procurement@dai.com**, copying **matthew_farrell@dai.com** and **talin_baghdadlian@dai.com**. The subject line of the email should be your organization name, followed by “Submission under RFP INVEST-016: Haiti Agriculture Value Chain.” Please certify in your submission email a validity period of 60 days for the price(s) provided and include your organization’s DUNS number. Please limit file submissions to 10 megabytes or less.

II. **Composition of Proposal:** Your organization’s proposal should comprise the following submission documents. The Technical Proposal and Cost Proposal should be prepared as separate files for independent evaluation, as follows below. Technical proposals should be submitted as a ten-slide presentation. Submissions in PowerPoint or in PDF are acceptable, although PDF is preferred along with an accompanying PowerPoint document. Please provide a copy of your cost proposal in Excel format.

**Part 1 – Technical Proposal**

Please limit your technical proposal to no more than seven (7) slides. The technical proposal is composed of the following three (3) sections:

1. **Technical Approach** – Offerors will detail their approach to fulfilling the accompanying Statement of Objectives (SOO). The approach will clearly indicate how the proposed activities will result in the successful completion of all deliverables and milestones.
2. **Institutional Capacity** - Offerors should provide details about the experience, expertise, or capacity of their firm to recommend the proposed approach and complete the work as described. This should also include past performance information for similar contexts.

3. **Management Plan/Staffing Structure** – Offerors should include details of personnel who might be assigned to the activities described in the technical approach, as well as a clear management plan in narrative form for the development, review, and submission of all associated deliverables, including a milestone schedule. Offerors are permitted to engage in partnering arrangements if it will aid in providing best value to USAID, regardless of whether organizations belong to the USAID INVEST network. If a partnering arrangement is being proposed, please describe the nature of the arrangement, the specific technical value being contributed by each member of the team, and the appropriate management controls to ensure successful delivery. Firms may consider partnering with other firms that bring in complementary skill sets and experience. We don’t anticipate all firms will have all the relevant experience and expertise needed and value partnerships where appropriate.

In addition to the above, please include the following. These inputs will not be counted as part of the 7-slide limit and the format may be PDF or Word:

- One (1) to two (2) examples of past performance relevant to this activity (limited to two (2) pages per example)
- CV(s) of any individuals proposed in the staffing plan to conduct this activity (limited to two (2) pages per individual)

A cover slide will be considered a non-counting slide, should offerors choose to include one. No additional annexes or documentation are requested now.

**Part 2 – Cost Proposal**

The contract type for the presumptive task order(s) will be Fixed Price, awarded as a subcontract by DAI Global, LLC. Please include your total proposed fixed price along with details for specific deliverable pricing. Offerors should also include a cost breakdown of the hourly rates for proposed personnel, if applicable, with a build-up to their total proposed price or include substantiating price reasonableness documentation/justification. Offerors can use the attached cost/budget template; please limit file submissions to 10 megabytes or less.

**III. Evaluation of Proposal:** DAI will use best value determination for the award of this Request for Proposals. A best value determination means that, in DAI’s estimation, the selected offer will provide the greatest overall benefit to USAID in response to the requirements stated in this RFP. DAI may also exclude an offer from consideration if it determines that an Offeror is "not responsible", i.e., that it does not have the management and financial capabilities required to perform the work required. Proposals will be evaluated against a stated number of factors, including the overall proposed approach, past performance, specific qualifications in the identified sectors and other evidence substantiating the bidder’s ability to deliver, including budget and time frame considerations. Specific preference will be shown for firms with experience conducting assessments in agricultural value chains in Haiti.
1. **Technical Proposal:** The Technical Proposal will be scored and evaluated separately from the cost proposal. Technical panel reviewers will evaluate offerors on the following factors, consistent with the offerors’ technical proposal.

   a. **Technical Approach (30 points)** - Points for this section will be awarded based on the information presented in the technical approach. Points will be awarded to firms describing their thoughtful approach to addressing the statement of objectives. The offeror will be scored based on its presentation of a clear approach which reflects the requirements of this specific activity but also incorporates the offeror’s competencies. The technical approach should clearly demonstrate the offeror’s strategy in conducting a rapid mapping of key agricultural value chains, as listed on the Statement of Objectives. The technical approach should also demonstrate the offeror’s strategy in assessing the finance needs and opportunities in Haiti, while considering existing USAID investments. In addition to identifying investment opportunities in Haiti, the offeror will be assessed on the strategy proposed to identify potential blended finance approaches that could be deployed by USAID to facilitate transaction completion.

   b. **Institutional Capacity (50 points)** – Points for this section will be based on information presented in the corresponding section and any submitted case studies. Preference will be given to firms and/or consortia that have past performance in timely and successful delivery of similar assessments and/or relevant experience in designing and/or conducting agricultural value chain assessments, with demonstrated experience in blended finance. Emphasis will be placed on firms that have experience conducting similar assessments in Haiti.

   c. **Management Plan/Staffing Structure (20 points)** - Points for this section will be based on the qualifications of proposed staff, clear delineation of the roles and responsibilities of each proposed staff and each proposed firm (if firms are partnering), and the demonstrated efficacy and clarity of the management plan. Proposals should provide a clear management plan in narrative form for the development, review, and submission of all associated deliverables, including a proposed milestone schedule. If the offeror is submitting a proposal along with partners, the proposal should describe the nature of the arrangement (i.e. added technical value), the division of labor among the partners, and the appropriate management controls to ensure successful delivery.

2. **Cost Proposal:** Cost will be evaluated separately from the technical approach, with due consideration for realism, price reasonableness, and allowability consistent with US government cost principles. Evaluation for this section will be dependent upon all information presented by the Offeror in their deliverable table and supporting cost information, as well as its alignment with the proposed technical approach.

3. **Offeror’s Agreement with Terms and Conditions:** The completion of all RFP requirements in accordance with the instructions in this RFP and submission to DAI of the technical and price proposals will constitute an offer and indicate the Offeror’s agreement to the terms and conditions in this RFP and any attachments hereto. DAI is not required to accept and/or evaluate proposals that do not conform to the instructions of the RFP, and additionally, DAI may reject all proposals and not award a subcontract for this RFP. DAI reserves the right to award a subcontract without discussion and/or negotiation; however, DAI also reserves the right to conduct discussions and/or
negotiations, which among other things may require an Offeror(s) to revise its proposal (technical and/or price). By submitting an offer, Offerors agree to comply with the general terms and conditions for an award, including Representations and Certifications compliance. Offerors must provide full, accurate, and complete information in response to this solicitation. By submitting an offer, Offerors certify that they have not/will not attempt to bribe or make any payment to DAI employees in return for preference.

Issuance of this RFP in no way obligates DAI to award a subcontract, nor does it commit DAI to pay any costs incurred by the Offeror in preparing and submitting the proposal. DAI reserves the right to award a subcontract to one organization or to issue multiple awards to different organizations based on the results of our evaluation.

Thank you,

DAI INVEST Procurement and Partnerships Team
